

YOU CAN'T STAY HERE

- VERSE 1: Three o'clock in the mornin' - Inside and on the street
Nighthawks are circlin' - For someone to meet
Smoke, wine and whiskey - Mix with moon glow
Strangers ask strangers - Is there someplace we can go
- VERSE 2: The bartender's barkin' - Everybody's got to leave
Take it out in the parking lot - And he's not asking please
He's had a long day - Drew ten thousand beers
Now he says, "you don't have to go home... - But you can't stay here"
- CHORUS 1: You don't have to go - Home to your dear
Now the question's cloudy - But the answer is clear
Check into a motel - Dry up your tears
You don't have to go home - But you can't stay here
Here - here
- VERSE 3: Now the stage is silent - And the neons are black
The bartender bolts the door - Then 'e slips out the back
We're lyin' on the car hood - lookin' up at the stars
I ask about your old man --Does he know where you are
- VERSE 4: Shadows upon your face - Can't hide your darkest fears
I can tell you got problems at home - It's like lookin' in a mirror
So I touch your diamond band - And I whisper in your ear
Hey you don't have to go home - But we surely can't stay here
- CHORUS 2: Why don't we go - Far away from here
Now the question's cloudy - But the answer is clear
Fall into my loving arms - Dry up your tears
You don't have to go home - Just hold me near
Near - near - near - near
- BREAK: same as near - near part
- BRIDGE: Now you don't have to go - Don't have to be blue
You don't have to go on - Feelin' like a fool
Will you stay with me - Darlin' I need you
Or will you go home and hide your tears
Anyway we can't stay - here
Here - here - here - fade
