

FIRST LOVE

INTRO: Instrumental music = similar to "Redwing"

VERSE 1: You're the melody no silence can damage
You lift my spirits when I'm down and out
You know the way to calm my beastly savage
My love for you I will never doubt

But darlin' I've got this one confession
You know me far too well to hide the truth
See my foolish heart has always been divided
With this love affair that started in my youth

CHORUS 1: And music has always been my first love
It fills me with a feeling I can't hide
Ever since I was a child rockin' slowly to the rhythm
While Gramma sang "the moon shines bright...
On pretty Redwing tonight"

BREAK: music = verse

BRIDGE: But I can't say this love affair don't feel right
These smoky bars can't do me no wrong
When I'm pickin' with the band 'till after midnight
Then makin' music with you all night long

CHORUS 2: 'Cause music has always been my first love
And it will be until the day I die
But now the moon's shining down tonight on you love
And I can still hear Gramma singin'
When I look into your eyes

EXIT: same as intro
