

GIVEN BREEZE

INTRO: musical intro

CHORUS: Catch the breeze
Blowing from above
Take this gift and make the best of it
Upon the sea
We'll be so in love
With the wind on our stern
We will know when it's our turn
To sail away upon the given breeze

VERSE: Lately my free spirit has been captured
You are the only one to set it free
The east wind holds us both within her rapture
Like a ship out on the indigo sea
From North Star to Tropic of Cancer
Finding passage in each others arms
Now we're like a weightless water dancer
Embracing every reason that we are

CHORUS: repeat

TAG: With the wind on our stern
We will know when it's our turn
To sail away upon the given breeze

EXIT: same as intro
