

HARDWOOD HEAVEN

INTRO: -----

VERSE 1: Born and raised among the hardwood trees
Summers hot and winters long
Michigan wildwood was singin' in the breeze
Melody to my song
Too young to know about the birds and the bees
But old enough to get along
Old enough to get along

VERSE 2: Whitecaps rollin' fast upon the sea
They turned to ice before my eyes
I roamed the ice caves my sister and me
and spent my days in clear blue skies
I drank the love my parents offered me
And happiness came as no surprise
Happiness came as no surprise

CHORUS: More love I'll never know
Bluer skies I'll never see
Life's so easy among the hardwood trees
Love is life and life's for me

BREAK: Music = chorus

CHORUS: Repeat with tag:
Love is life and life's for me... I wanna say it again now
Love is life and life's for me... Say it one more time now
Love is life and life's for me
